WEE CHILD INCENDIARY

Locks Himself in Room and Plays With Matches.

A box of matches, a wee Portuguese mite of a boy about four years old were the combining features which started a blaze yesterday at 12:40 p. m. in the home of John Souza, a carpenter, on Queen street, beyond the Magoon tenement. The infant incendiary was almost a victim of his innocent sport.

The child has a penchant for lighting matches and the household has had to exercise the greatest care to prevent the youngster from obtaining them. If a box of matches is left about the house it is usually placed in some inaccessible place, far from the reach of the baby hands.

The house is a sort of a one-story affair with a full sized basement beneath. This is divided off into compartments. In one a bed and some furniture was placed and in this a young man had his home. The wall end was only a lattice work. On the top of a wardrobe the lodger had left a box of matches, presumably far from the child's reach. While the family were out of doors the little fellow wandered into the room, locked the door from the inside, procured a chair and climbed up and got the matches. He then amused himself by lighting them.

A neighbor was attracted by the smell of smoke and looking toward the Souza house saw smoke streaming through the lattice work. Fire was also seen and then came the crying voice of a child in trouble. The inmates were notified and a rush was made for the bedroom. The door was forced in, for the child was too frightened to unlock it, and flames were encountered. It was wash-day, and tubs were emptied upon the blaze which was then enveloping the walls and eating through the ceiling. An alarm was turned in, but in a short time the fire was out. The fire department, however, responded and the police patrol wagon as well, but their services were unnecessary. The police wagon was hampered in speed by lack of a gong, the one long in use having recently been broken. The driver did not take chances in running over citizens and therefore came upon the scene second instead of first, as is often the case.

THEY GET QUICK STRENGTH AND HEALTH FROM

Paine's Celery Compound

MEN AND WOMEN HEARTENED—
BRACED—INVIGORATED QUICKLY
BY THE CELEBRATED
NERVE VITALIZER AND
Tonic.

MISS FLORENCE WORDEN.
Paine's Celery Compound Restored Her
So Quickly that Her Doctor
was Astonished.

Tired, weak-nerved, thin-blooded, unhappy men and women get quick, sure, hearty health from this celebrated Nerve Vitalizer and Tonic. It drives away lassitude, gives courage and strength. There is a rich increase in blood supply, and soon the whole system thrills with hearty health.

"Paine's Celery Compound has been worth a thousand dollars to me," writes Miss Florence Worden, niece of Admiral Worden. "Strain of professional duties left me a nervous wreck. I went home and for weeks was nursed by my mother as an absolute invalid."

"My digestion was very weak, and I suffered agonies from neuralgia."

"A girl friend sent me a bottle of Paine's Celery Compound, with a cheerful, hopeful letter, telling what it had done for her. I took four bottles, and by the end of summer I was well—absolutely well."

"Not since I was a child have I felt such buoyant HEALTH AND SPIRITS. Our doctor was astonished."—(Miss) Florence Worden, 314 West Forty-seventh street, New York.

WEEKLY CROP BULLETIN

For Week Ending January 28, 1905.

Honolulu, T. H., January 30, 1905.

GENERAL SUMMARY.

During the past week, temperatures have been slightly higher than during the preceding weeks of the month, but have still continued decidedly below the normal. The present month has been the coldest January within the period covered by Weather Bureau records.

In Hawaii, rain has occurred over the northern portion of the Hilo district, along the windward coast of North Kohala, and in Kau; while elsewhere throughout the island, notably in the Kona and Puna districts, the weather has been generally dry. In Maui, dry weather continues along the southern coast, but the rainfall elsewhere has been abundant, the streams in the gulch country north of Haleakala being flooded. The rainfall in Oahu has been practically confined to the Koolau-poko district, and no rain of importance has fallen in the agricultural sections of Kauai except in the immediate vicinity of Hanalei.

On account of the cold weather, young cane has made slight progress during the week; while lack of water has interfered with the grinding of matured cane in the Hilo and Puna districts of Hawaii and the Kipahulu district of Maui. Pastures in Hawaii, Kauai, and leeward Maui need rain. In most sections the setting out of seedling rice plants is in progress. Mango trees have blossomed well, and give promise of a fine summer crop.

REMARKS BY CORRESPONDENTS.

ISLAND OF HAWAII.

Kaunapali—Abundant sunshine is promoting the ripening of old cane; there is still sufficient moisture in the soil to enable young cane to retain its rich color and make some growth; bananas are suffering for rain; pastureage short; weeding and stripping cane.—J. E. Gamallison.

Hilo—Crops suffering on account of dry weather, which has hastened the ripening of taro, causing considerable loss; northeasterly winds.—L. C. Lyman.

Papaikou—Still very dry; considerable trouble in keeping mill supplied with cane, owing to shortage of water; have never seen the streams in the Hilo district so low; cutting and grinding cane; plowing and planting.—John T. Moir.

Peepee—Have had some rain, but not enough to help fluming much; nights still cold and not much growth of cane.—Jas. Webster.

Honouliuli—Milder weather during past week; light rain on night of 23d has refreshed growing cane, which shows more growth in consequence; stripping and harvesting cane.—Wm. Fuller.

Laupahoehoe—Showery, with light winds and cool nights; still short of water; southerly winds all week.—E. W. Barnard.

Oakala—Clear and dry, with little growth of vegetation, during most of week, followed by a good rain on the afternoon of the 27th.—W. G. Walker.

Poauhau—Very dry cold weather all week; variable winds.—W. J. Rickards.

Honokaa—Slow growth of cane on account of continued cold weather; very little rain.—C. H. Briggs.

Kohala—Mission—Continued dry weather is injuring crops and pastures, but the rain on night of 27th will relieve the situation slightly.—Dr. B. D. Bond.

Puakea Ranch—Weather warmer, but rain much needed; pastures dry.—A. Mason.

Puuhiue—Weather dry with light southerly winds; rainstorm threatening.—S. P. Woods.

Kamuela—Calm, clear days and cold nights; water running low; a flurry of snow on Mauna Loa during the night of 24th.—Mrs. E. W. Hay.

Puuwaawaa—Light showers on 21st; cattle need rain; feed dry; nights and mornings cold.—Robt. Hind.

Kealahou—No rain; very light dews; even the weeds do not grow.—Rev. S. H. Davis.

Kealahou—Nearly all vegetation is almost at a standstill on account of the drought; the nights are still cool but not so cold as during the previous week.—Robt. Wallace.

Kau—Southerly winds during most of week, with good rain and indications of more.—F. H. Hayselden.

Pahala—Light showers and slightly warmer weather during the past week, but no improvement can be noticed yet in condition of cane and pastures.—H. D. Harrison.

Kapoho—Very dry; animals and vegetation need rain; heavy dews; cane looks well.—H. J. Lyman.

Olan—Cold nights; 16 of an inch of rain during week.—E. P. McCann.

ISLAND OF MAUI.

Kipahulu—Drought still continues; young cane begins to show effects of dry weather; no water; forced to stop grinding; light variable winds.—A. Gross.

Nahiku—Two good rains this week have been of great benefit to grazing lands and crops in general.—C. O. Jacobs.

Huilo—Cool weather continues; heavy rain from west and north on forenoon of 26th; all streams in the Hamakua and Koolau districts running floods, rendering Government horse trail impassable; stock of all kinds looking well, and vegetation advancing.—W. F. Pogue.

Hakua—The very light winds of the week, clear sunny days, gentle night rains, and somewhat higher temperatures, have had a favorable effect on all our growing crops; mango, peach, and other fruit trees freely showing blossoms for summer crop; pastures and grazing stock continue in good condition.—D. D. Baldwin.

Pala—Light showers and cool nights; clearing, plowing and replanting land; brigading, weeding, fertilizing, cutting and grinding cane.—J. J. Jones.

Kahului—Cool nights; bright, sunny days; light rain on two days of week.—R. W. Filler.

Punahoa—Unusually cold in early mornings; heavy showers from the west on the 26th; harvesting operations proceeding rapidly; young cane not growing much; pumps started, but shut down again.—J. N. S. Williams.

Wailuku—Weather continues cold; harvesting cane and plowing land.—C. B. Wells.

Wailuku—Nights very cold, on account of which garden vegetables have suffered a great deal; makai rice planters setting out rice plants.—Bro. Frank.

Kihel—Weather slightly improved over that of last week, with light rains to windward, which were much needed, though the country needs much more rain and warmer weather for good of crops; harvesting operations being pushed and good progress being made.—James Scott.

Olowalu—Weather continues mild with cold nights; young cane growing slowly; pastures getting very short and streams very low.—Geo. Gibb.

Kaanapali—Light variable winds and fine weather throughout the week; pastureage in good condition; local plantation harvesting cane.—Wm. Robb.

ISLAND OF OAHU.

Maunawili—Weather has been cool; rains have been of great advantage in ripening remainder of coffee crop; growth at a standstill; pastures fair.—John Herd.

Waianae—Unusually cold nights; high westerly winds during latter part of week; owing to the cold, young cane is making very little progress; harvesting crop.—F. Meyer.

Waihua—Weather dry and cold with strong winds unfavorable to growth of cane; plowing and preparing land for planting cane; harvesting crop of 1905; rice planters plowing and planting.—W. W. Goodale.

Kahuku—Weather cool and dry; cane has not made much growth this past week; light showers on 22nd, 25th and 26th were beneficial to young cane and pastureage, but more rain is needed; high variable winds during latter part of week; irrigating, hoeing, and harvesting; clearing and plowing land.—R. T. Christophersen.

Laie—The small cane is getting dry, and we have started to irrigate; the days are warmer, but the nights still continue too cold for the growing cane to make much progress.—D. D. Dibble.

ISLAND OF KAUAI.

Kekaha—Light rains in Mana and Kekaha early in the week; strong northerly winds all week in Mana have had some effect on the young cane, but no serious damage done; continued fine and cool weather in Kekaha.—H. P. Faye.

Makawili—Thunderstorm on the 24th accompanied by rain; mild weather most of the week fair for growing cane.—B. D. Baldwin.

Elele—Weather dry, with warm days and very cold nights; light thunderstorm on 24th accompanied by very light rain; cane growing slowly; harvesting and grinding cane goes on steadily.—McBryde Sugar Co.

Koloa—Weather continues dry.—P. McLane.

Lihue—Cold weather continues; no rain during the week.—F. Weber.

Keala—Still very dry; reservoirs and ditches very low; grinding steadily; juice very good, and yield up to estimates.—G. H. Fairchild.

Kilauea—The weather being dry, with cold north winds, prevents all the cane from growing; Hanalei district rice lands being prepared.—L. B. Borrello.

Hanalei—Cloudy weather with warm days and very cold nights; pastures in good condition; rice plantations ready to plant young rice.—E. G. K. Deverill.

A. McC. ASHLEY,
Section Director.

ABOUT COLDS.—In all countries and among all nations of the globe, cough medicines are used and used probably more extensively than any other one class of medicines. Every human being is subject to throat and lung troubles, which may terminate his existence. People everywhere realize the dangerous consequences of a neglected cold, for the majority of fatalities have their origin in and are characterized first by a simple cold. The more careful and prudent persons do not permit a cold to run its course, but treat it promptly. For many years Chamberlain's Cough Remedy has been in use throughout the United States and many other countries and time has proven it to be the best adapted of any remedy yet made for all throat and lung diseases, and especially coughs, colds, croup and whooping cough. It always cures and cures quickly. For sale by all dealers, Benson, Smith & Co., Ltd., agents for Hawaii.

PUNCHBOWL, TANTALUS AND WAIKIKI BEACH FOR PARKS

Legislative Committee of Young Men's Research Club Will Ask the Legislature to Set Places Apart for This Purpose.

A government road completely circumscribing Punchbowl below the upper rim is a feature which is said to be in contemplation by the Public Works Department. This can be effected by extending Prospect street from the Makiki side around to form a junction with the Punchbowl road on the Pauoa side.

This is in line with plans of the special committee of the Young Men's Research Club on park legislation. A meeting of the committee, of which Senator C. H. Dickey is chairman, with E. Faxon Bishop and W. W. Harris as members, was to have been held yesterday, but a quorum did not show up.

The Research Club will go before the Legislature asking that the whole of Punchbowl be set aside as a public park. The public may not generally be aware that Punchbowl is at present under lease to the Kapiolani Estate. The lease will expire in about six years.

The club will also request that the top of Tantalus which, with the exception of a few lots, is owned by the government, be reserved as a public park. This would take in about ninety-five acres of forest land, comprising a section from just above L. A. Thurston's place and all above a line drawn from that point straight over to Manoa Valley, with the summit of the Manoa ridge as the boundary. This property could be made available at once. The club hopes that in time paths can be cut through the forest to give easy access to pedestrians.

The club will also recommend the setting apart of fourteen lots along Waikiki Beach, between Kapiolani Park and the sea-front, for park purposes. The property wanted is that at present occupied by C. F. Hart, J. B. Castle and Mr. Kunst. All the leases on this property will run out in fourteen years and less. At that time the club wishes the government to throw the property open as a public park, thereby giving the city a public seaside resort.

CLOSING OUT SALE OF GLOVES.

ALL GOODS SOLD AT COST AS FOLLOWS:

KID GLOVES, former price \$1.50; now sold at...95 cts.
